

URBAN
SQUARE

ARCHITECTURAL GLAZING & PARTITIONING SPECIALISTS

Competitive prices guarantee. We deliver a service direct from the manufacturer, cutting out unnecessary costs in the process

www.urbansquare.net

We are dedicated to giving you the very best product and service with a focus on quality and affordability.

Urban Square offer a wealth of knowledge and experience within the architectural glass industry. Our friendly team is made up of project managers and skilled operatives, many who have worked in the glass industry for over 25 years.

We serve customers from across the UK, building long term relationships as their glazing systems partner for current and future projects.

We work with architects, designers, main contractors, interior fit out companies and direct with end users in Commercial, Industrial and the Domestic sector. We offer the widest range of glazing systems on the market and are not tied to any one manufacturer enabling us to ensure each project is matched with the optimum fitting system.

Our ethos is simple, to provide the best solution at the most affordable price.

We hope you enjoy our finished product as much as we enjoy providing them to you. If you have any questions or comments, please don't hesitate to contact us.

We work across all industry and service sectors, providing goods and installation to meet the needs of those using the system as well as adhering to the current regulations for DDA, Fire Resistance, Load Stress, Acoustic Rating and many other requirements particular to each sector and system used.

COMMERCIAL

With many designs for office partitioning and a choice of colours we can create a vibrant space with lots of light and colours making it employee and customer friendly in the process.

RETAIL

The Retail sector is a fast moving environment where having the best quality or the most modern system can set you apart from your competition.

LEISURE

Hotels, Amusement Parks, Football Stadiums, Sporting venues, Health Clubs, Restaurants and Cafes are being built or refurbished on a scale not seen before.

FINANCE

Financial companies require high end aesthetics incorporating premium systems with look and function playing a vital role. Acoustic Double glazed systems and Privacy screens are widely used in this sector

EDUCATION

From main reception, glass balustrade to the swimming pool the use of glass and the need for borrowed light to make learning spaces more attractive is key to education building design.

TRANSPORT

The transport sector has many multi-purpose buildings. Rail, bus, ferry and cruise ships all use architectural glass systems for ticket booths, retail units and balustrading. Airports comprise Retail, Leisure and Commercial spaces.

MANUFACTURING

Acoustic laminates allow for long runs of clear glazing between offices, canteens and manufacture areas allowing for greater transparency between departments.

HEALTHCARE

With glass being a smooth, non-porous, easy to clean material it's not surprising it is used more and more in the construction of Healthcare buildings as well as in their interior design.

GOVERNMENT/PUBLIC SERVICES

From Local Councils, Emergency Services, Law Enforcement to Public buildings, the need for glass in their internal design and construction both internal and external to endless.

PRODUCTS

Our systems are tested to meet the structural, acoustic and fire rating requirements for commercial and domestic installations.

SNEEZE SCREENS

To assist the return to work for UK businesses Urban Square has developed a range of Coronavirus Protection Screens for temporary or permanent placement. We offer standard sizes to suit most reception counters and desks and can create bespoke solutions to meet the specific needs for Offices, Receptions, Canteens and Restaurants where an off the shelf solution will not work.

SERVICES

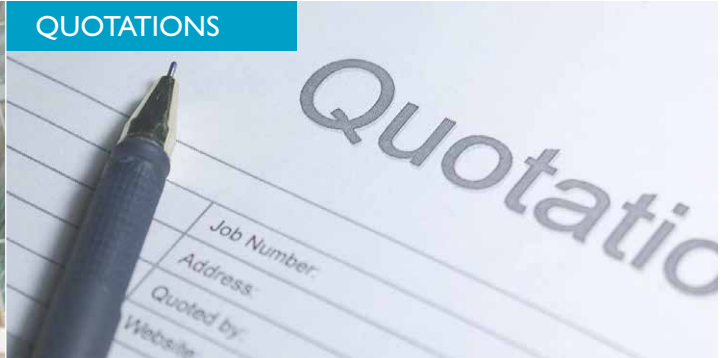

Our systems are tested to meet the structural, acoustic and fire rating requirements for commercial and domestic installations.

SITE SURVEY

Site surveys are inspections of an area where work is proposed in order to gather information for a design to assist in understanding the manufacture, material and labour requirements. It can determine the precise location, accessibility and location of obstacles.

QUOTATIONS

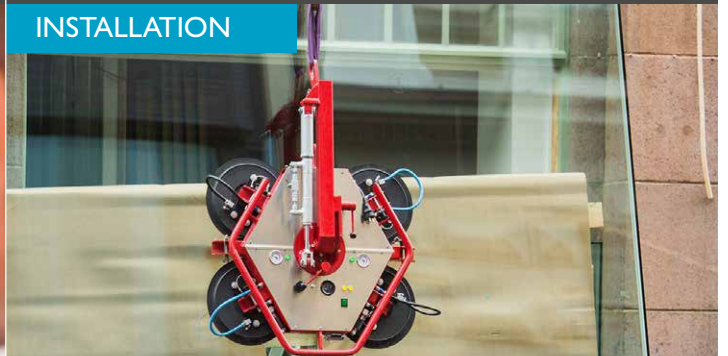

At Urban Square we don't have a standard price list due to the nature of our business. This is because the skills, time and materials required for each job vary depending on customers' needs.

DESIGN

With our wealth of knowledge of the different systems on the market and our experience in delivering projects across the UK we are happy to work with customers from the initial concept or at any time during the design stage to ensure the final solution meets customers' expectations.

INSTALLATION

Urban Square offers a nationwide installation service. Our operatives are all fully trained and qualified in the areas of work we undertake. From a simple shower screen to a floor of glazed offices we undertake all types of project, both indoor and outdoor.

AFTER SALES

Urban Square provides After Sales support for all our projects, whether its supply only or supply and installation. Whether you require an urgent repair or further information on the system supplied we are happy to assist.

SUPPORT

Technical Support can be offered in a number of ways. In its most simple form we can verify the RAL colour specified for a chosen system or provide off the shelf product information for the parts and systems we provide.
